

Featuring a removable stainless steel pan, GB and GF platform scales offers a durable solution for industrial applications such as weighing, parts counting, percentage weighing and comparative weighing. The GB and GF works well as an auxiliary platform in tandem with Adam's CBD bench counting scale. The GB and GF performs with a number of indicators and is available in a range of capacities and platform sizes. The GB and GF is well-suited for shipping and receiving, batching items for processing, and stock and warehouse auditing. Features include single-point precision load cell technology and overload protection.
